

God Gives His People Dreams

My friends, just recently God gave Bro. Mooney a dream and many of us took it to heart. (Note: to hear Bro. Mooney's dream: <http://www.calvarytabindy.org/> Click on "Dream in Room 212.")

Below is another dream, this one received by one of my friends--a humble young lady who does not make it her business to seek things like this. But I feel so very strongly that this dream was given to her to "TELL THEM."

God truly is speaking to His people in dreams and visions because He love us so much. Dreams are certainly biblical and this one has been confirmed on several levels. I would not be forwarding it if that were not so, and if I did not feel the Holy Ghost so strongly in this. Although I don't usually put this kind of attention into these things, I do feel that I need to take up the cause to "Tell Them." There is such an urgency about it.

Here, then, in my friend's words. I pray you will take it to heart.

~~~~~

*Pre-Emptive statement: I'm not a big "OH, I had a dream this...or that..." But, I do believe the Lord speaks to us through dreams at times. It's Bible. So, here goes....*

I'm in a large vehicle with my family and friends. My mom is seated beside me the rest of the people are in the back seats, but, I interact with all of them as a group. My son is in the back directly behind me and my daughter to the left.

While we drive through a large metropolis, I'm watching the sky. It's becoming very dark with roiling clouds and the wind begins to kick up, making leaves and debris swirl around the car. Lightening strikes across the blackness of the sky, showing a funnel cloud lowering over the city.

Everyone in the car begin to panic and want to get out and seek some sort of shelter. I tell them, "Stay in the car! We'll be safe, if we just stay put!" Arguing ensues, but, I stand firm and urge everyone to remain inside and wait.

The funnel cloud spirals down to form a huge tornado and begins to destroy the large city. Debris, lightning, wind and noise pummel the car, knocking it back and forth. The passengers are nervous and fearful watching the destruction of the city.

At that moment, the Lord spoke to me and said, "If you will stay still and watch; you will be safe. Tell them." I did.

"The storm is deadly, but, I will divert it from you. This I will do to show you that I am God. Tell them."

I did.

"Some will see this and believe it is my hand. Others will make excuses. Some will never say a word. Watch and know that I am God. Tell them." I did.

The tornado was gaining speed, strength and size as came closer to us. Darkness engulfed us and we could see the horizontal swirling of clouds and wind. The passengers began screaming and crying. I yelled back, "Be still! The Lord told us that he would spare us! This will not kill us!" Through the

chaos of the storm and the screaming of the people, I shouted, "Watch and know that God is real!"

The whirling winds and lightning subside from around the car and hovered over the city. Then, it changed into the form of a finger and with a horrific force and explosion, it touched down on an obscure house in the midst of the city.

Only the house was destroyed. The city remained intact. We were safe.

However, even after all they'd seen and heard, first hand; the passengers argued over what had just taken place. Some were saying things about the 'storm'. Others about a 'wind change'. But others, about the hand of God.

Then, the Lord spoke again, "Tell the people to get out and go to their homes. They will believe I am God or they will not. They will be saved or they will not. They will hear or they will not. They will speak or they will not. Tell them to go."

I did and I woke up.

### *Peace~Love~Blessings*

~~~~~  
This dream has been confirmed by the Holy Ghost by several people. The following is one interpretation, this one given by a friend who has a prophetic ministry. I include this for information purposes only.

First, this dream gives me cold chills. I am sure this is prophetic and I believe this will soon come to pass in the realm of the Spirit. The dark clouds and blackness of the sky reminds me of Bro. Mooney's dream he told us about in his recent message, "Dream in Room 212."

That it is a large metropolis makes us shudder that something is going to come against one of our larger cities in the U.S. and that we should be very much in prayer for our Nation...for this could be coming against us very soon. We know that the Eastern Nations are in so much turmoil and that they are just "itching," to strike our Country again. With all the lightening that she keeps mentioning and the clouds, it very much concerns me that this time it might be an atomic bomb. You know that there are countries in the East who have the ability to make those bombs and possibly have them.

The vehicle is the church because it was large, had many back seats and her family was with her. Many people, in the church today, do not take seriously the things which are unfolding right before their eyes. Even though they know that the end time is going to come very soon, they are somewhat lulled asleep or they fail to see how dark the clouds, how high the wind, or how bad the lightning. Yet, others were so fearful, panic stricken. It is for sure that the Lord wants this lady to reassure her family and friends that God has everything under His control. That no matter what comes or goes, we need to be

still before Him, so He can work and we can have peace and assurance that with Him everything will be alright. However, I troubled that first she says the huge tornado begins to destroy the large city, and then later, that one house was destroyed. I know the Lord said He would divert the storm, which is why the city was spared, but the one house...someone is in danger. Some ONE is in danger, that she is close to. Someone who fails to recognize the finger of God not only in His ability to destroy, but His ability to save, to divert, to keep safe.

The passengers argued because so few have any vision for what is happening in the prophetic realm and how it is playing out in the world today. It is happening every moment of every day and so few people know and some do not care what is happening. Some are so carnal that they do not see the finger of God, others see only the natural and not the spiritual.

HE expects us to go about our business...go to our respective homes and either we will believe Him or not. Either we will hold onto the things of God or we will not. But, God desires that we know He is God and that HE is able to save, to divert, to help, to keep, and to guard us.

I am so troubled by the ONE house destroyed. Someone is in definite danger

--Note: This "house" could also be the White House.

What do YOU think?
